

Sir

Camp White Plains July 23. 1778

Since the new York Council this I have consulted
Gen. Greene & he desires that all the Forage from
Hunton that from Batsto come by the way of
Brunswick Newark Aquackanack Lt Dobbs's
Ferry where a person shall be appointed to
receive & forward the same - you will therefore
please to give the necessary Orders to the Teams
and hasten them on with the Cattle Horn as
we are short of Grain - Stop the Teams
from hauling any from Newark till further
Orders but let it be pressed & sent under cover
not too near the Shore - the Teams to haul
Grain -

Yours D^r
